

# Nordon Serial Numbers

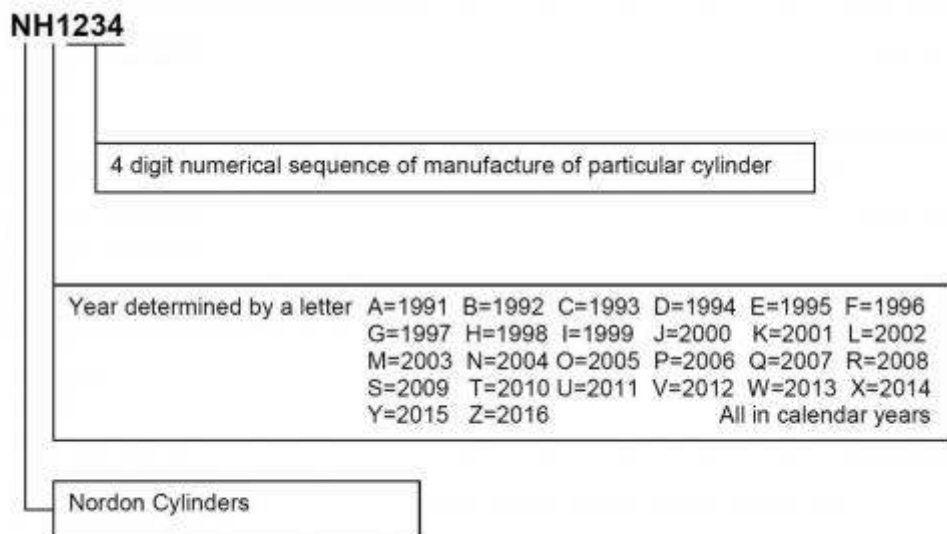

Nordon Cylinders stamp each and every cylinder manufactured by us with a serial number.

The serial number consists of 2 letters and a 4-digit number. These numbers are stamped in with a metal stamp around 6mm high.

They are usually positioned around the base port.

Like cylinders manufactured at the same time will have common serial numbers.

Serial numbers are determined by the year of manufacture followed by a numerical sequence, basically as follows

*'Strokes ahead of the Rest'*

Nordon Cylinders, 15 Johnstone Road, Brendale Qld 4500  
Phone (07) 3889 6522 Fax: (07) 3889 7198
